

François Ghost

Philippe Starck

A series of rectangular two-dimensional wall mirrors which bring to mind the milled crystal frames. The frames are made of transparent or coloured polycarbonate with seagull wing sections and can be hung horizontally or vertically. Designed for transparency or coloured transparency, they borrow from the colours of Murano glass to create a striking effect of depth and richness. The François Ghost mirrors also come in elegant matte coloured and black and white versions.

8300 / 8310

Transparent

B4/crystal	
V1/yellow	
V3/bottle green	
V4/purple	
V5/red
